

Helping your customers protect their mobile devices

Practical protection for laptops and tablets - built for everyday movement.

Techair | function with emotion

A straightforward range that combines protection, portability and considered design.

WHAT IS IT?

Techair is a mobile-device protection brand covering everyday laptop bags and sleeves alongside protective tablet cases. The range is designed to keep devices safer in transit without making them awkward to carry or use.

WHY IT WORKS FOR TARGET CUSTOMERS

Easy add-on sale

Attach protection to a laptop or tablet opportunity and increase the value of the solution.

Simple customer story

Match the device, choose the protection level, then select the carry style or case features needed.

Broad everyday appeal

Suitable for education, business, home and mobile working use cases.

Confidence after purchase

Lifetime warranty provides a strong reassurance point at the point of sale.

WHY IS IT GOOD?

Protection without the bulk

Foam-protected laptop carry options and rugged tablet cases help absorb the knocks of daily travel.

Useful details built in

Depending on the product: accessory pockets, shoulder straps, stands, stylus storage and screen protection.

Reassuring warranty

The products reviewed for this card are backed by a lifetime warranty.

RANGE AT A GLANCE

Laptop bags / briefcases

- Foam protection • compact carry • accessory storage • adjustable shoulder strap options

A dependable everyday choice for notebooks on the move.

Laptop sleeves

- Slim neoprene protection • soft lining on selected styles • easy to carry alone or inside another bag

Ideal when customers want lightweight protection with minimal bulk.

Rugged tablet cases

- Shock-absorbing silicone + rigid shell • stands • stylus storage on selected models • full button/camera access

For tablets used in busier, higher-contact environments such as education.

Folio tablet protection

- Form-fitting cover • viewing/typing positions • tactile grip • auto on/off on selected models

A leaner option for customers wanting protection plus day-to-day usability.

START THE CONVERSATION

"How will the device be used and carried day to day?" Use the answer to guide the customer towards a sleeve, bag, folio or rugged case.
